Service

Approved Provider
Residential Aged Care Facility
Somercare

Overview of the Service

There's a reason why Somercare on the Mornington Peninsula is a leading provider of aged care services and a haven of good living. Our 130-bed aging-in-place facility provides superior care in impeccable, modern surrounds, all set against the backdrop of the picturesque Peninsula, with its proximity to beaches, vineyards, olive groves and seaside villages.

Our operators have been providing successful aged care services, which focus on respect and dignity, for more than 25 years. Our facility features tranquil courtyards that highlight our citrus groves and meditative reflective pool, small, communal entertaining spaces, as well as activities rooms, a computer room/library and larger entertaining spaces for private functions. Architecturally it merges with the local environment whilst capitalising on all the sensations of coastal living.

Drop in and meet our dedicated and compassionate care team, inhale the fresh sea breeze and experience some of our many outstanding features. At Somercare we offer luxurious private rooms with ensuite and garden views. Our 24-hour nursing care means all residents' needs are met.

Somercare also provides dementia care with state-of-the-art security systems. We have strong relationships with well-regarded doctors.

Residents enjoy daily seasonal, gourmet cuisine created by our kitchen team, who regularly review residents' nutritional requirements. Somercare also offers an extensive range of services including hairdressing, beauty therapy, physiotherapy and podiatry, psychotherapy, cognitive and sensory programs, massage and dementia specific activities.

At Somercare our residents can be busy morning and night, with a wide range of activities offered to residents of all care levels. Activities include intergenerational programs, musical performances, film screenings, garden clubs, fetes, craft activities, pet therapy, games, cooking and outings.

Somercare a haven of peace and good living.
